## ABOUT

---

With over 5 years of experience as a full-stack developer, I possess deep expertise in crafting robust, scalable, and efficient web applications. I specialize in both front-end and back-end systems using modern technologies and development best practices. I'm also the founder and maintainer of the open-source npm package **create-express-node-starter**, downloaded over 9,000 times.

Proven in leading teams, managing entire project lifecycles, and consistently delivering high-quality solutions that exceed expectations and meet tight deadlines.

## EDUCATION

---

- **International Private Polytechnic School of Tunis** Tunis, Tunisia  
*National Engineering Diploma, Big Data and Business Intelligence* *Sept 2019 - July 2022*  
(Recognized by MIFI as equivalent to a Bachelor's degree in Computer Science)

- **Tools:** Visual Studio Code, Visual Studio, Jira, Power BI, Colab, SSDT, MSS, Postman, Swagger
- **Soft Skills:** Excellent communication skills, Interpersonal skills, Problem-solving abilities, Teamwork, Leadership, Time management, Adaptability

## EXPERIENCE

---

- **Cofomo Inc** Quebec, Canada  
*Full Stack Developer* *September 2024 - Present*
  - Currently assigned as a Full Stack Developer through Cofomo for large-scale mandates in the public sector, including Revenu Québec.
  - Design, develop, and maintain enterprise-grade applications using **.NET Core**, **C#**, **Angular**, **React**, RESTful APIs, and cloud platforms like **Azure**.
  - Participate in software architecture and service-oriented design (SOA), ensuring secure, maintainable, and scalable solutions.
  - Apply clean code principles (**SOLID**, **TDD**, **BDD**) and implement CI/CD workflows using **Azure DevOps** and **Git**.
  - Collaborate in **Agile teams** (Scrum, Kanban) with product owners, QA specialists, and architects.
  - Support unit testing, system testing, and integration testing to ensure high software quality.

- Document technical solutions and maintain strict compliance and security standards as part of Cofomo's consulting engagements with government clients.
- **Orange Tunisia** Tunis, Tunisia  
*Team Lead / Full Stack Developer* *February 2022 - June 2024*
  - Planning and coordinating resources to ensure project deadlines and objectives are met.
  - Analyzing user needs and functional specifications to design effective software solutions.
  - Participating in feedback and follow-up meetings to identify potential issues and propose solutions.
  - Managing application testing and deployment phases to ensure quality and reliability.
- **EMIKETIC Web Technologies** Hammamet, Tunisia  
*Full Stack Developer* *June 2021 - February 2022*
  - Optimizing application performance to ensure a smooth user experience.
  - Integrating security systems to protect sensitive user data.
  - Staying updated on the latest development trends and best practices through technology watch.
  - Participating in brainstorming and design sessions to propose improvements and innovations for existing products.
- **ReBootKamp (RBK) Tunisia** Tunis, Tunisia  
*Full Stack Developer / Technical Mentor* *September 2020 - February 2021*
  - Assessing student progress and identifying areas requiring additional support.
  - Encouraging and motivating students to foster their engagement and success in the program.
  - Developing and presenting educational materials to facilitate understanding of technical concepts.
  - Collaborating with other mentors to share best practices and harmonize teaching methods.
- **GoMyCode** Tunis, Tunisia  
*Full Stack Developer* *May 2019 - July 2020*
  - Collaborating with design teams to transform mockups into interactive and aesthetically pleasing user interfaces.
  - Participating in code reviews to ensure quality and consistency of developed code.
  - Integrating accessibility solutions to make applications accessible to all users.
  - Contributing to technical documentation to facilitate long-term maintenance and evolution of applications.
- **GoMyCode** Tunis, Tunisia  
*Full Stack Developer Intern* *January 2019 - April 2019*
  - Actively participating in team discussions to contribute to the resolution of technical issues.
  - Developing prototypes and demos to showcase key features of new functionalities.
  - Acquiring practical skills by working on real projects under the supervision of industry experts.
  - Collaborating with other interns to share ideas and knowledge and foster a collaborative learning environment.

## VOLUNTEER EXPERIENCE

---

- **Google Developer Student Clubs Lead** Polytech Intl, Tunis  
*Organizing events, workshops, etc. for over 1000 students.* *July 2021 - May 2022*
- **Member of the FSEGN Marketing Community** FSEGN, Nabeul  
*Assisting students in learning marketing and its benefits.* *October 2018 - May 2019*
- **Member of the Microsoft FSEGN Technology Club** FSEGN, Nabeul  
*Assisting students in bridging the gap between theory and practice.* *October 2017 - May 2018*

## CERTIFICATIONS

---

- **Foundations of Project Management** Google  
*Coursera* *Certified 2024*
- **Scrum Fundamentals Certified (SFC)** SCRUMstudy  
*SCRUMstudy Link* *Certified 2023*
- **MTA: Database Fundamentals** Microsoft  
*Credly Link* *Certified 2021*
- **MTA: Networking Fundamentals** Microsoft  
*Credly Link* *Certified 2019*
- **MTA: Windows Operating System Fundamentals** Microsoft
